

ABOUT OUR LAWYER

Ever felt unsure whether your lawyer is truly qualified? You're not alone. In fact, Bar Council of India revealed that nearly 30% of lawyers may be holding fake degrees. At AdvoLive, every lawyer you see is verified and backed by a real track record — no guesswork.

Advolive – Your Trusted Legal Partner for Every Business Need

Running a business is exciting, but it also comes with challenges. One of the biggest challenges is **legal paperwork** – agreements, contracts, company registrations, and protecting your ideas. If these things are not done properly, they can lead to disputes, losses, or even business failure.

That's where [Advolive](#) steps in. We make legal services **easy, clear, and reliable** so that you don't have to worry about complex laws. From drafting a simple agreement to registering a company, we handle it all under one roof.

Why Legal Agreements Matter

Many people think agreements are just “formalities.” But in reality, they are **shields of protection**.

Imagine you start a restaurant with a friend. In the beginning, everything feels fine. But later, arguments start – “Who will manage accounts?”, “Who gets more profit?”, or “Who pays when there's a loss?”. If nothing is written, such small fights can break the whole business.

That's why agreements are **must-haves**, not **optional extras**. They:

- Avoid misunderstandings
- Protect your rights
- Ensure fair profit sharing
- Save time and money in disputes
- Give your business legal strength

3. [Employment Agreement](#)

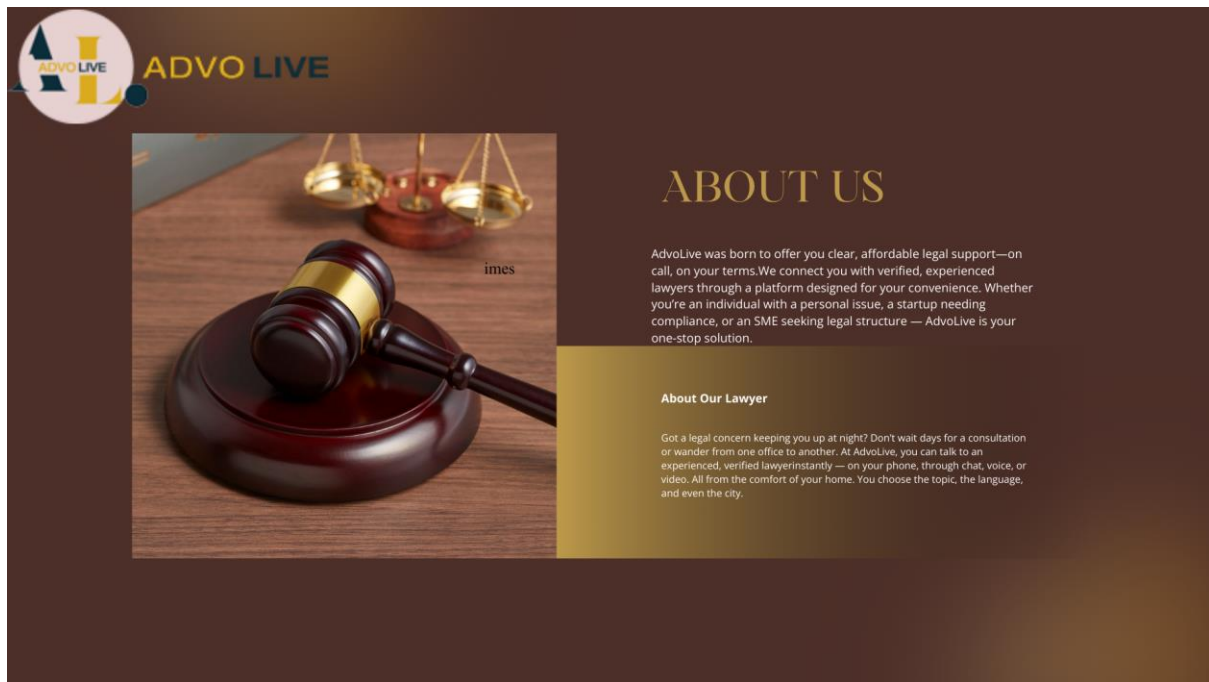

Every company needs this. It protects both employer and employee by clearly stating job duties, salary, and work conditions.

4. [Franchise Agreement](#)

Planning to buy or sell a franchise? This agreement explains brand use, fees, and responsibilities on both sides.
